

GGFPD FIRE CHIEF INCREASED TIME & OCCUPATIONAL DEDICATION PROPOSAL

Kyle Kociemba–Benson GGFPFD Fire Chief

A VISION FOR THE FUTURE

Foster a self-sustaining and self-reliant community-focused fire district. A District that is both prepared for the future and shines in the present as the exemplary all hazards urban interface fire department.

A NARRATIVE OF OPPORTUNITY

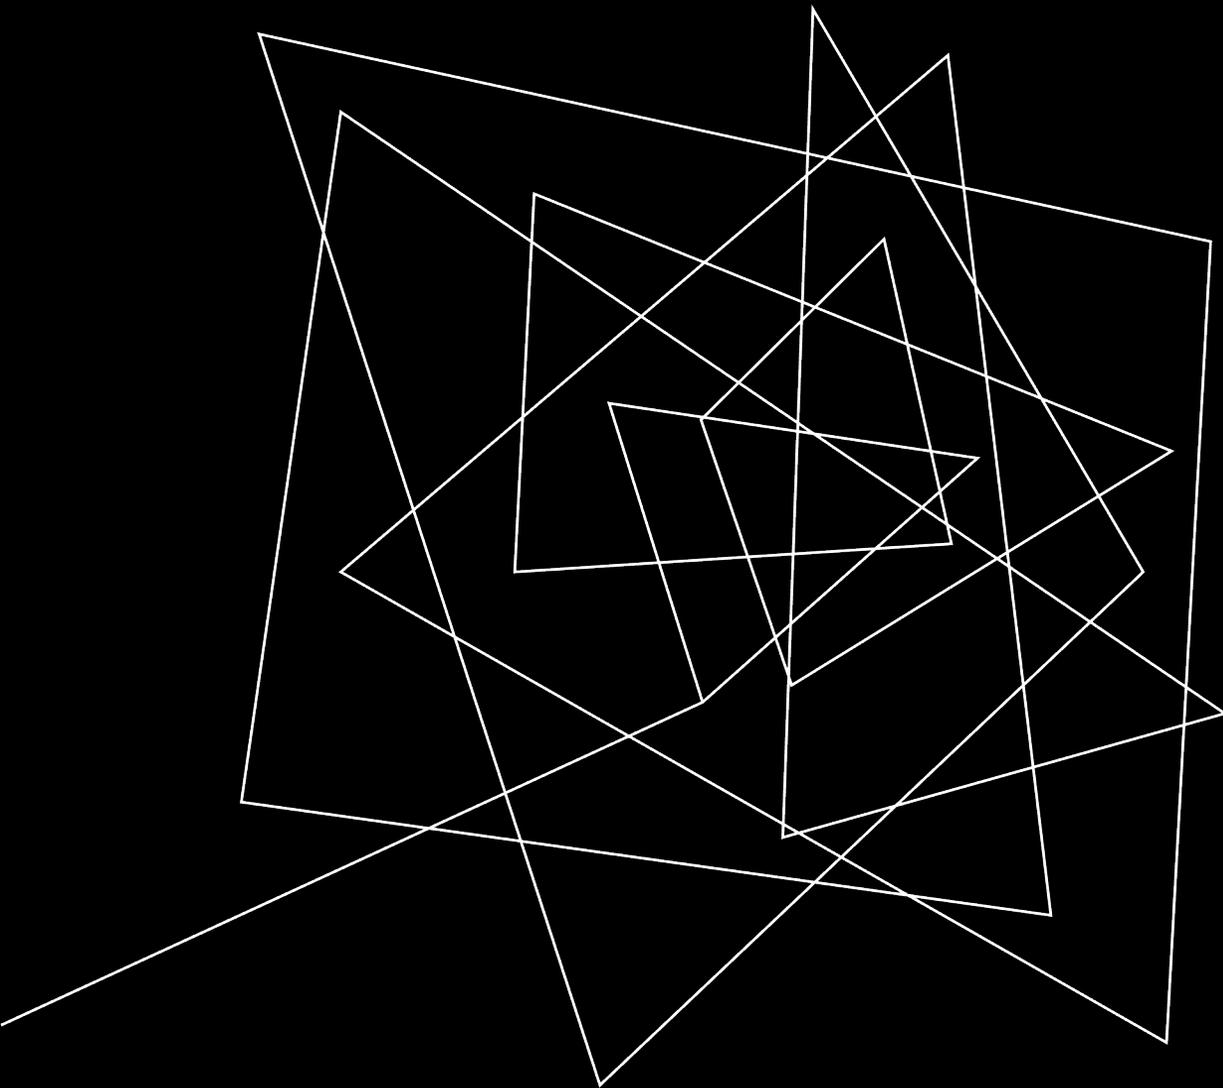

As I begin to take the reins of GGFPD's operations and look to the future, I would ask for us to consider two things. First, what are our goals for the district? Secondly, what will it truly take for us to get there?

I have heard many great aspirations from board and community leaders in the month leading up to the offer as Fire Chief. The desire for self reliance, ownership, pride, safety, and stability are consistent threads through conversations both personal and observed.

Along with these objectives there are key concerns regarding bandwidth and stability. This concern is not limited to the position of Fire Chief but all positions in the district. Adhering to my commitment for transparency I too share these concerns.

Reflecting on the above, and my fiduciary responsibility to the operational success of the fire district, I would like to propose an incremental increase to the Job Description of Fire Chief. This would, in turn, allow me to offer increased dedication and time commitment to GGFPD by allowing a decrease in professional obligations outside of the district. I strongly believe the following proposal would better allow myself or a future Fire Chief to address inward and outward facing objectives and pave the way to lasting success of the district.

PRIMARY GOALS

- Responsibly increase the allocated time & bandwidth of the GGFPD Fire Chief position to better facilitate the district's ability to achieve both inward and outward facing goals.
- Grow the GGFPD Fire Chief position to allow for primary occupational dedication to the district and its citizens.
- Improve stability of the Fire Chief position at GGFPD.

ADDITIONAL BENEFITS

- Improved district coverage during business hours.
- Partial paramedic coverage in district.
- Increased availability for training and interaction with line firefighters.

SUGGESTIONS FOR FUTURE ALTERNATIVE FUNDING OPPORTUNITIES

- Consolidation of services to the district
- Non-resident impact/response fee assessment
- Home assessment program
- Increased grant application rate

AN OPTION FOR FURTHER ENHANCED STABILITY

In order to ensure district stability many Fire Districts hire Fire Chiefs on an annual or multi year contract basis. If this option appeals to the GGFPD Board, I would be open to future discussion on executing a Chief's Contract.

The image features a black background with several white, thin, overlapping geometric lines on the left side. These lines form various polygons and intersect at several points, creating a complex, abstract pattern. The lines are primarily oriented vertically and diagonally, with some horizontal segments. The overall effect is that of a modern, minimalist graphic design.

THE NEXT STEP OF GGFPD IS
BRIGHT AND FULL OF
OPPORTUNITY.

THANK YOU FOR YOUR CONSIDERATION

Kyle Kociemba-Benson – GGFPD Fire Chief
